

Downtown Excelsior Partnership

The Downtown Excelsior Partnership is a community supported and volunteer driven organization for people of all walks of life who are working together to revitalize our downtown. We are united in our efforts to build a special place that future generations will be proud to call their home. We share a deep-rooted love for Excelsior Springs, an affection for its history, and a passion for creating a fun, economically vibrant and visually compelling downtown. Downtown Excelsior Springs is the FIRST and FOREVER heart of our community.

Historic Hall of Waters

The Hall of Waters was a WPA project began in 1936 with a construction cost of one million dollars as a distribution point for the mineral waters. Art Deco Style architecture was chosen as in keeping with the Mayan Indian tradition relating to water and water gods. Included in the structure was a mineral water pool and hydrotherapy baths, as well as the world's longest water bar.
